

OP3-G  
Country of origin:  
Polish in England

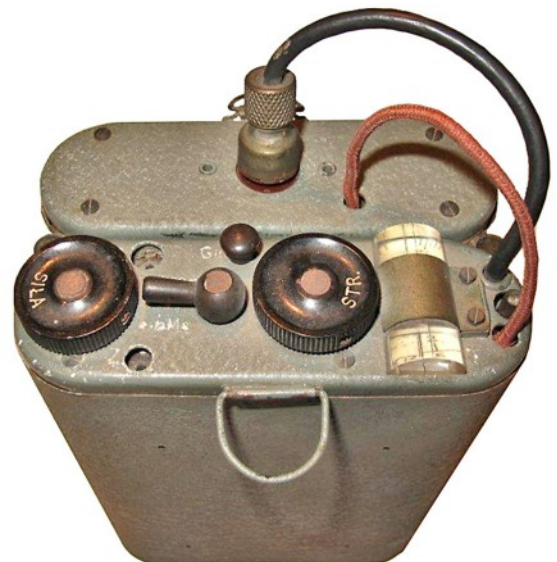

REMARKS

The OP3-G was a miniature receiver intended for use by resistance organisations. It was manufactured in England by the Polish Wireless Research Unit in Stanmore.  
The receiver unit of the OP3-G was similar to the OP3. The whole set differed only in a miniature loudspeaker which was incorporated in the battery box, and a combined battery box/receiver case.

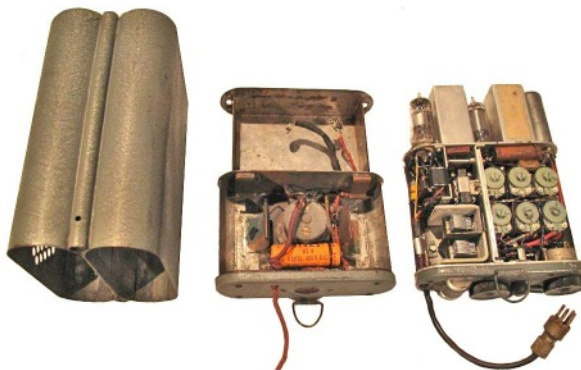

This Supplement chapter is a follow up and should be read in conjunction with the 'OP3 (Type 30/1)' section in the 'Poland' chapter of WftW Volume 4.

DATA SUMMARY

**Organisation:** Polish Home Army (Armia Krajowa); SOE  
**Design/Manufacturer:** Polish Military Wireless Research Unit, Stanmore, England (Polski Wojskowy Warsztat Radiowy).  
**Year of Introduction:** Probably 1944.  
**Purpose:** Partisans.
